DETAILED ACTION

Allowable Subject Matter

1. Claims 1-11 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 1 recites, inter alia, a power control means connected to the transformers and the controller, for controlling power to other elements except the controller according to the DPM mode; and a transformer controller for outputting power to control the transformers under the control of the power control means.

Claim 41 recites, inter alia, a second power-saving part connected to an arbitrary point of a secondary side of the main transformer, for outputting a predetermined voltage in response to the second DPM signal output from the controller; a main power switch connected to one end of a primary side of the main transformer, for controlling an operation of the main transformer; and a transformer controller for controlling an operation of the main power switch according to an operation of the second power-saving part.

Claim 47 recites, inter alia, under an operation of the power-saving part or an output thereof, controlling at least one of the power-saving part, another power-saving part, and a transformer controller used as a main power controller; and after controlling the main power controller, operating a sub power to supply power only to the controller.

Claim 49 recites, inter alia, under an operation of the power-saving part or an output thereof; controlling a main transformer, in a main power switch, by using the controlled output; and operating a sub transformer to apply a voltage only to Micom used as a controller.
